

Summer Analyst Program

Interning at MREG

MREG strives to nurture new talent through our Summer Analyst Program, targeting rising seniors at accredited colleges. Interns at MREG will gain experience and knowledge through a diverse set of collaborative and individual presentations, one-on-one mentorship with a “buddy” and presentations from senior leadership from each business line.

At MREG, our goal is to attract and retain the brightest minds in the business, hiring professionals across a wide range of disciplines with a passion for real estate. Our employees are integral to the firm’s identity, contributing to a culture of integrity, professionalism and excellence. It is their dedication and passion for their work that has helped MREG become a trusted partner for some of the largest institutional investors in the world. We encourage independent thinking and reward initiative, while providing services to help employees grow professionally.

A 2-in-1 Program

MREG’s 8-week Summer Analyst Program is broken down into two rotations – one with each of our credit and equity investment business lines. Both rotations consist of collaborative projects that will address real team and/or client needs. Each rotation culminates in an individual project and presentation to a mock investment committee. We offer a competitive stipend. Our ultimate goal is to bring great talent to MREG and we aim to fully immerse our interns throughout the program. This program is based in our New York office location.
